GitHub Profile Setup

- You can *check* the current configuration with the commands:
- **git config user.name**
- **git config user.email**

- The *configuration* commands will be:
- **git config --global user.name “user”**
- **git config --global user.email “email”**
-
- **https://docs.github.com/en/get-started/getting-started-with-git/caching-your-github-credentials-in-git**
